

RASWS Team Gantt Chart

Gantt chart with the percentage-time contributions from each team member to each WP throughout the proposal, along with the minimum expected scientific outputs for each WP: Refereed Journal Paper (RJP) and Conference Presentation (CP). RF and CS are both envisaged to start six months into the proposal at 100% time so that the proposal is fully running under the instruction of the PI (at 80% time throughout) and PA (at 60% time), and the HPC/equipment in place allowing them to ‘hit the ground running’. Both PhD students will be funded for three years at 100% time.
